

## EDI PET LITTER

Absorbent, deodorizing, environmentally friendly grinded diatomite

Retrospective history of ancient times is that our pets join us moving into our apartments, bringing warmth and love. Since then the humanity is working on the resolution of the connected sweet problems.

- Firstly, to ensure the possibly most natural environment for our pets.
- Secondly, to get rid of the animal excrement on the easiest possible way, without being disturbed by the smells

THE BEST SOLUTION TO THE ABOVE PROBLEMS IS EDI.

EDI is an environmentally friendly mineral mixture developed, produced and distributed from the highest quality of diatomite mined on Erdőbénye, Hungary.

EDI, due to its special mineral composition, has better characteristics compared to traditional pet litters, ensuring that you find pleasure in your pets.

Diatomite content of this product guarantees high absorption and deodorising capacity.

### CHARACTERISTICS

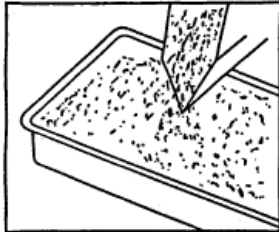

Environmentally friendly	<ul style="list-style-type: none"><li>• Bio-product consisting of natural minerals (diatomite, environmentally friendly packaging)</li></ul>
Hygienic	<ul style="list-style-type: none"><li>• Prevents the spread of bacteria</li><li>• Neutralises biogenic smells</li><li>• Absorbs moisture (high absorption capacity = 0,6 cm<sup>3</sup>/g),</li><li>• Does not contaminate the hair and environment of the pet, foot-friendly</li><li>• Sterilized (heat treatment on 1100 °C)</li></ul>
ECONOMY AND SENSIBLE	<ul style="list-style-type: none"><li>• A minimal amount absorbs the excrement, only the contaminated part should be replaced.</li><li>• Due to its light material structure can be emptied into the toilette.</li></ul>

### APPLICATION

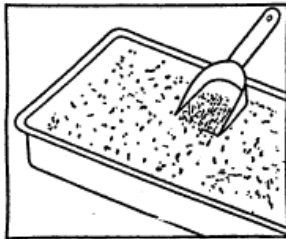

Depending on the type and size of the animal 1-1.5 kg should be placed on or around the mattress of the pet. This quantity ensures blocking the unpleasant smells of urine and faeces for 3-5 days.

## Usage

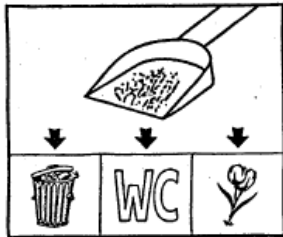

1. Fill up the litter tray in the thickness of 5-7 cm with EDI pet litter.

2. In the course of usage litter goes into a knob.  
You can remove the knob with a shovel.

3. Replace missing litter.

4. Used litter has soil improving characteristics, or can be gotten rid of via toilette.

EDI Pet Litter is essential for cultured cat and dog keeping

## Packaging

- 5 kg bag
- 10 kg sack
- 20 kg sack

If necessary, it can be packaged in palettes as unit cargo.

Produced and distributed by: Ediafilt Ltd.
